

**Pharmacy Plan Benefit Formulary**

The Formulary keeps prescription medications affordable. We monitor our formulary to make sure you receive the most clinically effective medications at the lowest cost. **The formulary is updated quarterly to reflect any applicable formulary changes.** The list is developed and maintained by a committee comprised of physicians and pharmacists (the Pharmacy and Therapeutics Committee). Inclusion on the list is based on consideration of a medication’s safety, effectiveness and associated clinical outcomes.

**Exclusions**

Prescription medications that have over-the-counter (OTC) equivalents are not a covered prescription benefit. As new products are made available OTC, they will be removed from the formulary. Additionally, the formulary does not include the products listed below. This list is not all-inclusive and is subject to change.

- OTC products (including non-sedating antihistamines, Prilosec, etc.)
- Appetite Suppressants
- Bulk Chemicals
- Diagnostic products
- Dietary Supplements
- Drugs with cosmetic indications
- Fertility drugs
- Medical Foods
- Vitamins and minerals

**Getting Answers to Your Questions**

Please access the latest formulary information by logging onto <https://mp.medimpact.com/ogb>.

For specific questions, please contact the Customer Contact Center at 1-800-910-1831. It is available 24 hours a day, 7 days a week.

**Maximize Your Benefits!**

**Generic medications offer the lowest copay**

Drug Type	Tier	Retail Copays before Out of Pocket Met	Retail Copays once Out of Pocket Met
Generic	1	50% max \$30	\$0
Preferred Brand	2	50% max \$55	\$20
Non-preferred Brand	3	65% max \$80	\$40
All Specialty Medications*	4	50% max \$80	\$40

Out of pocket amount = \$1500. Reset on calendar year.

\*Specialty medications are categorized as brand or generic drugs costing over \$600 and used to treat specific disease states such as Cancer, Multiple Sclerosis, and Rheumatoid Arthritis.
