OGB Board Seats Up for Election

Both Incumbents Term-Limited

OGB's Policy and Planning Board has two seats up for election in 2006. One seat represents the Department of Transportation and Development; the other comprises institutions of higher education.

ABOUT SSL CERTIFICATES

The DOTD seat is currently held by Mr. James Lee, who is employed at DOTD headquarters in Baton Rouge. Dr. Barbara J. Cicardo of the University of Louisiana at Lafayette now represents higher education. After many years of dedicated service to plan members and OGB, however, both incumbents have reached the term limits specified by Louisiana law and thus cannot run again.

Nomination packets are being distributed to your agency OGB coordinator. If you are represented by the DOTD seat or the higher education seat, you can pick up a packet from your OGB coordinator. Nomination packets are also available on the OGB website, www.groupbenefits.org.

Completed petitions and other material will be due in April. Complete details will be available in the nomination packets. If you have any questions about running for a board seat, please call 225-925-7983 or e-mail srunyan@ogb.state.la.us.
