Student status verification deadline

Plan members with covered dependents ages 21 to 24 must furnish proof of full-time student status within 30 days of the start date of each semester or quarter. If a letter from the registrar is not available, paid fee bills that indicate full-time student status or number of hours carried are acceptable. However, effective July 1, 2011, verification of enrollment will no longer be needed as dependents can be covered up to age 26 regardless of student status.
