(The In Health: Blue Health Services program is not available to Plan Participants with Medicare primary.)

Through the In Health: Blue Health Services program, OGB offers an incentive to Plan Participants on Prescription Drugs used to treat the chronic conditions listed above.

- a. OGB Plan Participants participating in the program qualify for \$0 Copayment for certain Generic Prescription Drugs approved by the U. S. Food and Drug Administration (FDA) for any of the listed chronic health conditions.
- b. OGB Plan Participants participating in the program qualify for \$20.00 Copayment (31 day supply), \$40.00 Copayment (62 day supply) or \$50.00 Copayment (93 day supply) for certain Preferred Brand-Name Prescription Drugs for which an FDA-approved Generic version is not available.

The In Health: Blue Health Services prescription incentive does not apply to any Prescription Drugs not used to treat one of the listed health conditions with which you have been diagnosed. OGB'S Pharmacy Benefit Manager

MedImpact Formulary: 3-Tier Plan Design*

OGB's Pharmacy Benefit Manager for the 2019 Plan year is MedImpact. OGB will use the MedImpact Formulary to help Plan Participants select the most appropriate, lowest-cost options. The Formulary is reviewed on at least a quarterly basis to re-assess drug tiers based on the current prescription drug market. Plan Participants will continue to pay a portion of the cost of their prescriptions in the form of a co-payment or coinsurance. The amount Plan Participants pay toward their prescription depends on whether they receive a generic, preferred brand or non-preferred brand name drug. You must use drugs on the Formulary to qualify for pharmacy benefits under the Plan.

*These changes do not affect Plan Participants with Medicare as their primary coverage.
