You have choices about how to get your Medicare benefits

- One choice is to get your Medicare benefits through Original Medicare (fee-for-service Medicare). Original Medicare is run directly by the Federal government.
- Another choice is to get your Medicare benefits by joining a Medicare Advantage health plan, such as Blue Advantage.

Tips for comparing your Medicare choices:

This Summary of Benefits booklet gives you a summary of what Blue Advantage covers and what you pay.

- If you want to compare our plan with other Medicare Advantage health plans, ask the other plans for their Summary of Benefits booklets. Or, use the Medicare Plan Finder at www.medicare.gov/plan-compare.
- If you want to know more about the coverage and costs of Original Medicare, look in your current “**Medicare & You**” handbook. View it online at www.medicare.gov or get a copy by calling 1-800-MEDICARE (1-800-633-4227), 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048.

Contact us

Please contact our Customer Service number at 1-866-508-7145 for additional information. (TTY users should call 711.) Our phone lines are open 8 a.m. to 8 p.m. CST, 7 days a week from October – March and 8 a.m. to 8 p.m. CST, Monday – Friday from April – September. You may also visit our website at www.bcbsla.com/blueadvantage.

Who can join?

To join Blue Advantage (HMO), you must be entitled to Medicare Part A, be enrolled in Medicare Part B, and live in our service area.

Which doctors, hospitals, and pharmacies can I use?

Blue Advantage (HMO) has a network of doctors, hospitals, pharmacies, and other providers that can be found on our website at www.bcbsla.com/blueadvantage. If you use providers that are not in our network, the plan may not pay for these services.

What do we cover?

Like all Medicare Advantage health plans, we cover everything that Original Medicare covers - *and more*.

- **Our plan members get *all of the benefits covered by Original Medicare*.** For some of these benefits, you may pay more in our plan than you would in Original Medicare. For others, you may pay less.
- **Our plan members also get *more than what is covered by Original Medicare*.** Some of the extra benefits are outlined in this booklet.

What drugs do we cover?

We cover Part D drugs. In addition, we cover Part B drugs such as most oral chemotherapy and some drugs administered by your provider.

- You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, www.bcbsla.com/blueadvantage.
- Or call us and we will send you a copy of the formulary.

How will I determine my drug costs?

Our plan groups each prescription drug into one of five "tiers." You will need to use our formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier and what stage of the benefit you have reached. Later in this document we discuss the benefit stages that occur after you meet your deductible, if applicable: Initial Coverage, Coverage Gap, and Catastrophic Coverage. If you have questions about the different benefit stages, please contact the Plan for more information or access the *Evidence of Coverage* on our website.

This document is available in other formats such as Braille and large print. This document may be available in a non-English language. Please contact our Customer Service number at 1-866-508-7145 for additional information. (TTY users should call 711.) This includes amending the plan document for your group health plan to establish the limited uses and disclosures it may make of your health information. Please see your group health plan document for a full explanation of the limitations placed on your employer for the use of this information and for any disclosures that may be made to the group health plan itself.

Health-Related Products and Services: Where permitted by law, we may use your health information to communicate with you about health-related products, benefits and services and payment for those products, benefits and services that we provide or include in our benefits plan, and about treatment alternatives that may be of interest to you. These communications may include information about the health care providers in our network, about replacement of or enhancements to your health plan, and about health-related products or services that are available only to our enrollees that add value to, although they are not part of, our benefits plan. For example, we may contact you about a Medicare Supplemental policy when you near age 65.

Public Health and Benefit Activities: Although this does not occur often, we may use and disclose your health information when required by law and when authorized by law for the following kinds of public interest activities:

- for public health, including to report disease and vital statistics, child abuse, and adult abuse, neglect or domestic violence;
- to avert a serious and imminent threat to health or safety;
- for health care oversight, such as activities of state insurance commissioners, licensing and peer review authorities, and fraud prevention enforcement agencies;
- for research in certain situations, such as when:
 - (1) an institutional review board or privacy board has reviewed the research proposal and established protocols to ensure the privacy of the information and approved the research or
 - (2) conducting research with de-identified or limited data sets to learn more about how to help members improve their health;
- in response to court and administrative orders and other lawful process;
- to law enforcement officials with regard to crime victims, crimes on our premises, crime reporting in emergencies, and identifying or locating suspects or other persons;
- to coroners, medical examiners, funeral directors, and organ procurement organizations;
- to the military, to federal officials for lawful intelligence, counterintelligence, and national security activities, and to correctional institutions and law enforcement regarding persons in lawful custody; and
- as authorized by state worker's compensation laws.

Individual Rights

The following are your rights with respect to your health information. If you would like to exercise any of the following rights, please submit your request in writing, sign your request, and mail it to the Blue Cross and Blue Shield of Louisiana Privacy Office at P.O. Box 84656, Baton Rouge, LA 70884-4656. Our contact information is provided at the end of this Notice.

Access: You have the right to examine and to receive a copy of your health information we maintain about you in a “designated record set,” with limited exceptions. This may include an electronic copy in certain circumstances if you make this request in writing.

Generally, a “designated record set” contains:

- claims and payment information;
- enrollment and billing information;
- other records used to make decisions about your health care benefits.

We may charge you reasonable, cost-based fees for a copy of your health information, for mailing the copy to you, and for preparing any summary or explanation of your health information you may request. Contact us using the information at the end of this Notice for information about our fees. You may withdraw your request if you do not wish to pay the fees.

In certain situations we may deny your request to inspect and obtain a copy of your health information. If we deny your request, we will notify you in writing and will inform you whether or not you have the right to have the denial reviewed.

Disclosure Accounting: You have the right to an accounting of certain disclosures that we make of your health information, excluding disclosures for treatment, payment, health care operations, as authorized by you, and for certain other activities.

We will provide you with information about each accountable disclosure that we made during the period for which you request the accounting, except we are not obligated to account for a disclosure that occurred more than six years before the date of your request. If you request this accounting more than once in a 12-month period, we may charge you a reasonable, cost-based fee for responding to your additional requests. Contact us using the information at the end of this Notice for information about our fees.

Amendment: You have the right to request that we amend your health information that we maintain about you in your designated record set. We may deny your request for certain reasons. For example, we may deny your request if the information you want to amend was created by your doctor. If we deny your request, we will provide you a written explanation, and explain to you how you can disagree with the denial by filing a statement of disagreement with us. If we accept your request, we will make your amendment part of your designated record set, and use reasonable efforts to inform others of the amendment who we know may have relied on the unamended information to your detriment, as well as persons you tell us you want to receive the amendment.

Restriction: You have the right to request that we restrict our use or disclosure of your health information for treatment, payment or health care operations, or with family, friends or others you identify. We are not required to agree to your request. If we do agree, we will honor our agreement, except in a medical emergency or as required or authorized by law. Any agreement we may make to a request for restriction must be in writing and agreed to by our Privacy Office.

Confidential Communication: If you believe that a disclosure of all or part of your health information may endanger you if sent to your current mailing address, you have the right to request that we communicate with you in confidence about your health information by a different means or to a different location that you specify. You must make your request in writing, and your request must represent that the information could endanger you if it is not communicated in confidence as you request.

We will accommodate your request if it is reasonable. You must specify the alternative means of contact or location for

confidential communication, and continue to permit us to collect premiums and pay claims under your health plan. Please note that other information that we send to the subscriber about health care benefits received may contain sufficient information to reveal that you obtained health care for which we paid, even though you requested that we communicate with you about that health care in confidence. If you have given someone else permission to receive health information about you, a request for confidential communications will cancel this permission unless you tell us otherwise.

Electronic Notice: If you receive this Notice on our website or by electronic mail (e-mail), you have the right to receive this Notice in written form. Please contact us using the information at the end of this Notice to obtain this Notice in written form.

Potential Impact of State Privacy Laws: The federal health care Privacy Regulations generally do not "preempt" (or take precedence over) state privacy or other applicable laws that provide individuals greater privacy protections. As a result, to the extent state law applies, the privacy laws of a particular state, or other federal laws, rather than the HIPAA Privacy Regulations, might impose a privacy standard under which we will be required to operate. For example, where such laws have been enacted, we will follow more stringent state privacy laws that relate to uses and disclosures of the protected health information concerning HIV or AIDS, mental health, substance abuse/chemical dependency, genetic testing, reproductive rights, or disclosure of health information of minors.

Breach Notification: In the event of a breach of your unsecured health information, we will provide you notification of such a breach as required by law or where we otherwise deem appropriate.

Questions and Complaints

If you want more information about our privacy practices or have questions or concerns, please contact us using the information at the end of this Notice.

If you are concerned that we may have violated your privacy rights, or you disagree with a decision we made about access to your health information, in response to a request you made to amend, restrict the use or disclosure of, or communicate in confidence about your health information, you may complain to us using the contact information at the end of this Notice. You also may submit a written complaint to the Office for Civil Rights of the United States Department of Health and Human Services, Region VI, 1301 Young Street, Suite 1169, Dallas, TX 75202. You may contact the Office for Civil Rights' Hotline at 1-800-368-1019.

We support your right to the privacy of your health information. We will not retaliate in any way if you choose to file a complaint with us or with the U.S. Department of Health and Human Services.

At Blue Cross and Blue Shield of Louisiana, our mission is to improve the health and lives of Louisianians – including how we store, use and protect our members’ data. Blue Cross has strong processes in place, which all of our employees must follow to protect members’ data in all forms (spoken, written and/or electronic).

Blue Cross approaches members’ data protection from three perspectives – physical security, cybersecurity and privacy. Blue Cross recruits, hires and trains qualified staff who work together to safely store our members’ information and make sure all employees are following the laws and regulations that protect it.

Blue Cross has extensive policies and procedures that outline the security and privacy standards and responsibilities for protecting members’ data. Employees are trained on Blue Cross data protection protocols as soon as they start working here, and all employees have refresher training at least once a year.

Blue Cross does not give every employee access to members’ information, and not all access is the same. How much member information any Blue Cross employee can access depends on his/her job and role within the company. Employees can only get to the information they need to do their jobs and not anything else. For example, a Customer Service adviser who needs member information to answer calls is able to see those records, but a business analyst working on internal projects would not need this access.

Spoken Data

Before Blue Cross employees give information over the phone or in person, they take steps to authenticate the identities of the people requesting information. This is to make sure the people calling are really who they say they are and that they have the right to request that information. Blue Cross has a process for our members to let us know whom they want to be an authorized delegate or legal representative. That means you are giving permission for them to contact Blue Cross and ask for information on your behalf.

Written Data

Blue Cross has strong privacy protection rules for paper documents. Employees are required to keep records in a safe place where they cannot be seen, for example in a locked file cabinet instead of lying on a desk. Blue Cross requires employees to go through their computers and securely destroy electronic files that are no longer needed. This prevents the information in these records from being stolen or accessed by the wrong people.

Electronic Data

Blue Cross IT staff uses the latest technology to keep electronic information secure by encrypting it within internal systems so that no one can get to it from outside the system. The IT staff members have processes in place to detect and prevent hackers from getting to our technical systems and monitor how employees access and use information within the organization.

If you have questions about how Blue Cross uses, stores or protects members’ data, call our Information Governance Office at (225) 298-1751.
